# Specialist Access Systems to Historic Buildings

**SPERIAN**

## Historic Grainger Market - Newcastle Upon Tyne

### Project

Stone Technical Services Ltd, recently completed the installation of safety systems to the Grade 1 listed building, in conjunction with Newcastle City Council and English Heritage. We designed and installed multiple access safety systems to enable safe access over roof areas, paying particular attention to the delicate nature of building fabric and conservation considerations. The work we carried out included internal roof space survey, design, manufacture and installation of walkway gantries, sarna roofing membranes for non-slip access egress and fall restraint systems to the whole project.

Value £280,000.

- Fall Arrest Systems
- Horizontal System - Access and Lifelines
- Incorporated Specialist Roof Coverings
- Bespoke Walkways
- Safety Barriers
- Vertical Systems
